What today's 15 big winners show

1. **"Too far above the open" was the #1 blocker for 11 of the 15** (45–90% of their checks): BB, XERS, AGEN, ONT, ADMA, ALVO, AVPT, STTK, TGB, RPD, IMMX. They moved early and then kept climbing — the open-anchored limit shut them out for the rest of the day. This is pattern 1 (tested in the queue with VWAP-based and base-based versions).
2. **Most were not on the 9:28 list** — only IMMX was. Twelve joined between 9:40 and 12:40, and INLF (+21%) only at 14:10. The scanner finds these stocks late (pattern 3).
3. **Wide spreads blocked the two biggest** — INLF (+21%) and YDES (+15%) were rejected mostly for spread > 1%. These are cheap, thin stocks; the spread rule protects against bad fills, so any change must be tested carefully.
4. **Volume pace "low" blocked 4** (WYY, INLF, RPD, IMMX) for part of the day (pattern 4).
5. **The bot bought only 1 of the 15** (AGEN, +\$52, sold early).
6. **News explains only 4 of the 15**: AGEN (analyst Buy initiation 7:58 AM), YDES (premarket mover story 5:29 AM), INLF (premarket mover list 8:05 AM), BB (midday story 1:52 PM, after its move had started); WYY had an after-hours mover item on Friday. **The other 10 had no news at all** in Alpaca's feed — so a news filter alone would miss most of today's winners; it could only add a few early candidates like AGEN and YDES.
7. **They peak late**: 13 of the 15 made their high after 2:30 PM (all but TGB and RPD), and 8 in the last 20 minutes of the day.
