Star bot trades, Monday 10/5/2026

27 trades (each re-entry is its own case), 15 won / 12 lost, total **$+60.92**. Right entry: the original right trade while watched; the 2nd-V entry (1st V support, 2nd V proof) is used ONLY where the chart shows the same pattern as RGNX (1st V = the day's low, a clear 2%+ bounce, the 2nd V holding the 1st V within 0.5%) -- on 10/5 that was RGNX only.
