Trading Tools & Addresses

Everything built for you on the server 68.183.154.175 that you can open in a browser: live bot monitors, the Rule Lab, day pages, reviews, knowledge documents, study reports and logs. Made 2026-11-03. All links are clickable.

Passwords: only the Rule Lab (and its book) asks for one: user **frank**, password in the server file /root/lab_password.txt (not printed here). Everything else opens without a password.

1. Live bots — watch them during the day

Tool	Address (click)	What you use it for
Trade Bot Monitor	http://68.183.154.175/trade/report/	Live trade bot (EV3): account, today's trades, decisions, charts, log tail.
Trade Bot positions	http://68.183.154.175/trade/report/positions.php	Open positions of the trade bot with live price and P/L.
Star Bot Monitor	http://68.183.154.175/premarket/report/	Live Star bot (bot buys, Star sells): account, trades, log.
Star Bot positions	http://68.183.154.175/premarket/report/positions.php	Open positions of the Star bot.
Alpaca paper dashboard	https://app.alpaca.markets/paper/dashboard/overview	Broker's own view of both paper accounts (log in with your Alpaca login; switch account for Star).

2. Testing — Rule Lab (password)

Tool	Address (click)	What you use it for
Rule Lab — build & run rules	http://68.183.154.175/trade/reports/lab/	Build entry + exit rules, pick period (10 years / 2 years / 6 or 3 months / custom), run backtest, see past runs, copy rules.
Rule Lab — a result	http://68.183.154.175/trade/reports/lab/result.php?id=JOB_ID	Opened from the runs list: totals, halves, by-year table, exit reasons, winner/loser charts, 'load 5 more'.
Rule Lab — trade list	http://68.183.154.175/trade/reports/lab/trades.php?id=JOB_ID	Every trade of a run: filter/sort, click any trade to draw its chart.
Rule Lab Book (PDF)	http://68.183.154.175/trade/reports/lab/book/rule_lab_book.pdf	31-page guide: every entry and exit setting explained with real charts and value-by-value examples.

3. Charts of past days and reviews

Tool	Address (click)	What you use it for
Past-day pages	http://68.183.154.175/trade/reports/days/	Each trading day: scanner stocks, 1-min chart with bot indicators per minute, bot buys/sells. Updated 16:40 ET.
Weekly reviews	http://68.183.154.175/trade/reports/weekly/	Every Friday 18:10 ET: review of both bots and the recorders (e.g. 2026-10-30_weekly_review.html).
All reports folder	http://68.183.154.175/trade/reports/	Browse every report file and PDF (session summaries, studies, winner/loser books).

4. Knowledge documents — check before new ideas

Tool	Address (click)	What you use it for
Fix list	http://68.183.154.175/trade/reports/fix_list.html	Your running list of agreed fixes and their status.
Entry knowledge base	http://68.183.154.175/trade/reports/entry_knowledge.html	Every entry test with results + DO-NOT-TRADE list.
Rules Book (PDF)	http://68.183.154.175/trade/reports/knowledge/rules_book.pdf	All rules (live and candidates) with their test results; section 5 = EV3 live rules.

Tool	Address (click)	What you use it for
Entry situations S1-S28	http://68.183.154.175/trade/reports/entry_situations.html	Your situation catalog ('not now' gates) and which are covered by v2.
Opening patterns (42)	http://68.183.154.175/trade/reports/opening_patterns.html	Catalog of opening patterns used by the Lab's pattern trigger.
Original design doc	server: /var/www/screener/trade/docs/breakout_bot_design_conversation.pdf	(Not on the web.) The first design conversation of the trade bot.

5. Loser / winner chart books from studies

Tool	Address (click)	What you use it for
x42 losers	http://68.183.154.175/trade/reports/x42_losers/	Charts of losers of the #42 test (reference run of the Lab).
x42 gate losers	http://68.183.154.175/trade/reports/x42_gate_losers/	Same with the gate.
p41 / p42 losers	http://68.183.154.175/trade/reports/p42_losers/	Big-dip V entry (#42) losers; also p41_losers, p42c_, p42d_, p42hl_, p42v_losers.
tr42 losers	http://68.183.154.175/trade/reports/tr42_losers/	Trend-trade #42 losers; also tr42x_losers, tr42y_losers.
r6 losers	http://68.183.154.175/trade/reports/r6_losers/	R6 setup losers.

6. Main study PDFs

Tool	Address (click)	What you use it for
EV3 account sim 2 years	http://68.183.154.175/trade/reports/ev3/sim_2y.pdf	Account simulation of the live EV3 setups 2024-26.
EV3 sample trades	http://68.183.154.175/trade/reports/ev3/ev3_samples_v1.pdf	Example EV3 trades with charts.
Open-window library	http://68.183.154.175/trade/reports/open_window/open_window_report.pdf	What is in the 2-year data library.
All tests summary 10/3	http://68.183.154.175/trade/reports/2026-10-03_all_tests_summary.pdf	Summary of the September/October tests.
Entry rules v2	http://68.183.154.175/trade/reports/2026-09-29_entry_rules_v2.pdf	The v2 entry rules (used by the Star bot's buys).
Big winners report	http://68.183.154.175/trade/reports/2026-09-28_big_winners_report.pdf	Traits of the big winners.
Issues & fixes catalog	http://68.183.154.175/trade/reports/2026-09-28_issues_and_fixes_catalog.pdf	Early issue list.
Practice charts	http://68.183.154.175/trade/reports/practice/	Chart sets you marked (groups/G8, G10, G4 ...).

7. Logs

Tool	Address (click)	What you use it for
Trade bot logs (web)	http://68.183.154.175/trade/logs/	Daily log trade_bot_YYYY-MM-DD.log, e.g. /trade/logs/trade_bot_2026-11-03.log.
Star bot logs (web)	http://68.183.154.175/premarket/logs/	Daily log star_bot_YYYY-MM-DD.log.
Bot decisions (server)	http://68.183.154.175/var/www/screener/trade/data/decisions/	Every decision per minute (YYYY-MM-DD.jsonl; older than 7 days .jsonl.gz). Premarket same path.
Real fills (server)	http://68.183.154.175/var/www/screener/trade/data/trades/	Trades rewritten with real broker fills each day 16:03 (reconcile_fills). Same in premarket/data/trades/.
Nightly jobs logs (server)	http://68.183.154.175/var/www/screener/trade/logs/ and reports/open_window/*.log	reference_build, edgar_events, news_recorder, reconcile_fills, bars10y, flow_tick, pm_history ...

Tool	Address (click)	What you use it for
Star exit daily check	http://68.183.154.175/var/www/screener/trade/reports/playbook/star_exit_daily.jsonl	16:15 out-of-sample check of 'bot buys, Star sells'.

Server paths (starting with /var/www) are opened over SSH/WinSCP to 68.183.154.175, or in your desktop copy under the same folders. **Note:** the bot log folders are readable on the web by anyone who knows the address (they hold no keys, but they show your trades). Ask Claude if you want them password-protected like the Rule Lab.
